### **DETAILED ACTION**

#### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 30, 2008 has been entered.
2. Claims 1-18 remain pending. Claims 1, 8, 13 are independent claims.

#### ***Response to Amendments***

3. Per Applicant's request, Claims 1, 8 and 13 have been amended.

#### ***Response to Arguments***

4. Applicant's arguments have been fully considered but they are moot in view of the new grounds of rejection.

#### ***Claim Rejections – 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejection under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or foreign country, before the invention thereof by the applicant for patent.

6. Claims 1-18 are rejected under 35 U.S.C. § 102(a) as being anticipated by U.S. Patent No. 6,177,931 to Alexander.

It should be noted that hereinafter the use of the clause "see at least" should be interpreted that the cited portions that follow the clause are not the only portions that are considered to be relevant. Should Applicant find that the cited portions are not relevant, other portions of the disclosure of the prior art reference will be provided as additional evidence and/or context to the relevancy of the previously cited portions. Since the evidence is from the same reference, the introduction of the additional evidence in response to Applicant's arguments should not therefore be considered to be that of new grounds of rejection.

**Claims 1, 8 and 13**

Alexander discloses all the features of Claims 1, 8 and 13 and further discloses:

*such that navigation over the second display portion replaces previously displayed data fields in the first display portion with a display of current data fields along the Z-axis from the second display portion* (see at least FIGs. 1, 3, 4A-B, 5, 6, 7, 8; it should be noted that:

i) grid guide 22 in FIG. 3 is a two-dimensional EPG -- i.e., the claimed first display -- with navigation along the X and Y directions;

ii) the navigation bar 20 in FIG. 3 is the claimed second display and allows navigation in the Z-axis;

iii) the navigation from the data field "Grid" to the data field "Sort" changes the data fields in grid guide 22 in FIG. 1 to the data fields in the grid guide 22 in FIG. 7; the clause "navigation over" is interpreted to mean moving the focus (e.g., highlight) on cell labeled "Grid" to cell labeled "Sort"; it is irrelevant whether two actions -- e.g., press the right arrow key 32 then the Select key 42 in FIG. 2 -- are required instead of one action because the claim language does not specifically require that the navigation is performed using only one action -- the navigation along the Z axis is described in the specification to be performed only with a key press --; such a requirement described in the specification should not be read into the claims; if Applicant believes that the requirement of one-key-press navigation from one data field to another is the subject matter of the invention, the requirement should be explicitly recited in the claim.

**Claims 2-7, 9-12 and 14-18**

Rejections of the corresponding base claims are incorporated. For the specific features recited in these claims, see previous Office actions.
